

HOMESTEADING BUILDING THE DREAM

September 15, 2019

ABOUT

Want to live on a homestead, move to the country or just grow more of your own food right where you are now? This course is a one-day intensive workshop to help you take your dream to a reality. We'll help you figure out what is right for you, teach you some of the basic skills you need and avoid the common pitfalls.

Note this is a one-day workshop, but we have our permaculture class the day before this one if you want to attend both.

WHO THIS IS FOR

This workshop is designed for those who want to gain a basic understanding around the core homesteading skills and help them develop a path from their dreams to making a homesteading life a reality. Because this is only a one day workshop, we can only teach you so much in the time, so understand we'll only focus on the basics.

THE SPEAKERS

Living in only 150 square feet for years, Ryan Mitchell has learned a thing or two about living simply. From downsizing to life simplification, and designing a life that's right for you, Ryan brings a lot of experience and practical knowledge to the table. He built his own tiny house in 2012 learning as he went along which inspired him to help others in their journey to live small. In 2014 he went off grid with his tiny house, installing a 4,000 watt solar array and has lived off the grid ever since.

Today he still lives in his tiny house full time, teaching others how to live simply. As a best selling author, he's been featured in the New York Times, BBC, Associated Press, Forbes, Entrepreneur Magazine, Mother Earth News, Treehugger, and NPR.

More speakers to be announced closer to event

OTHER DETAILS

Where and when is this event being held?

This event will be held at in Charlotte, NC at a venue called Advent Coworking 933 Louise Ave Charlotte NC. The event will start on Saturday the September 15th from 9am to 5pm. Free parking is available on site, limited public transportation access but it is possible. This session will be in a class room setting.

What is the cost to attend and are there age requirements?

The workshop cost \$149 per person. The workshop will be a small size to make sure we can give direct one on one feedback and answer all your questions. Attendees must be over 16 years of age.

What is the refund policy?

Once a ticket has been purchased all sales are final because we have to sign contracts for the room. We do allow for people to defer their ticket up to one year, this means if you have an emergency and can't make it, you can attend another session with your ticket.

Where do I get my ticket to the event?

We don't have actual printed tickets, we maintain a verified list of who's coming and will check you in at the event.
